

### *CALLE & ULRIKA HOUSE (Feature: 3519)*

This is a functional modernistic black wooden house with space for an active family.  
The horse shoe-shaped house is tailored to the nearby sea.

## *SYNOPSIS*

Facing the sea, the house has large windows letting in lots of light to the social parts of the house and provides beautiful views. The inner courtyard provides shelter from the sea winds and provides a private area for the family. The modern style has been created with a mixture of expensive designer furniture and repainted second-hand furniture.
