

*CHEST OF DRAWERS MAKEOVER (Feature: 4559)*

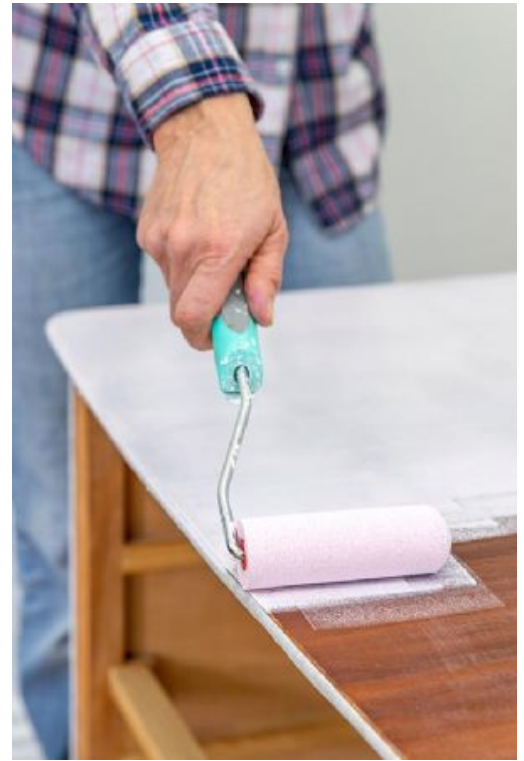

An easy one day project breathing life into a tired set of chest of drawers.

## *SYNOPSIS*

In this practical project an old chest of drawers is sanded down and given a new lease of life with a colour scheme of graduating shades of pink. The drawers are further customised by being lined with complimentary coloured floral paper and by being decorated with flower and foliage stencils. A wooden chair is also painted in the same gently graduated colour scheme to compliment the project.
